INTRODUCTION

From a digital media background, I design product experiences by turning business requirements into clear user flows, UI directions, and handoff-ready interfaces. I focus on balancing user needs, implementation efficiency, and business goals across product screens and landing pages.

UI/UX Designer

Digital Product

2 years of experience

EXPERIENCES

UI/UX Designer - Prime Commerce Asia Co., Ltd.

Mar 2026 - Now

- Design and optimize **end-to-end product experiences**, turning concepts and business requirements into user flows, wireframes, UI designs, and handoff documents.
- Create product landing pages focused on clear messaging, **conversion flow**, and user engagement.
- Actively collaborate with developers and stakeholders to clarify requirements and keep implementation aligned with design intent.

Multimedia Designer - DYM Medical Center Vietnam Co., Ltd.

May 2024 - Oct 2025

- Redesigned the DYM website with refreshed UI patterns and a more consistent **design system** across service pages.
- Produced landing pages and digital marketing materials to support campaigns, workshops, and business growth.
- Led visual content support for events, including content planning, photography, and creative direction.

UI/UX Designer - MLTech Soft Co., Ltd.

Oct 2023 - Jan 2024

- Mapped user flows, wireframes, and interactive prototypes for client products including IDP, Lof Kun, and Malto.
- Designed the Happy Lof School feature in the HLS app, helping improve user engagement in the first 3 months.
- Prepared **design system documentation** and digital assets to support cross-functional handoff with developers.

Freelance Designer - Self-employment

2022 - Present

- Delivered branding and digital design solutions for startups, including websites, landing pages, and marketing materials.
